Mr D M Cashin
 2018 C & I Life Building
 Houston 2, Texas

40115811

Dear Mr Cashin

Enclosed herewith are the settlement sheets and duplicate deposit slips for the royalties on the production of ores from the Turkey Creek Mining Company on the Wallower land The tabulation is as follows

Date	Co	Pounds concentrates	Value	Royalty	Less Bank Charge	Net
1952						
7-12		53 950 Zn)	\$2,657 04)	\$136 16	\$0 50	\$135 66
		37 8 Cd)	66 15)			
7-22		2 740	257 66	12 88	0 50	12 38
7-29		22 830)	1,128 14)	58 01	0 50	57 51
		18 3 Cd)	32 02)			
Total						205 55

Mr Wallower tells me this company map shut down in a few days

CLIFFWOOD LEASE

Drilling on the Cliffwood was reduced to the use of two drills the past month I moved one drill to the Wallower lease During the month we completed seven holes of which six showed commercial ore, and the seventh showed 85 feet of ore averaging only 0 71% zinc sulphide This drilling carried our orebody to the north and west Drill logs are attached

LITTLE MARY LEASE

One drill hole was completed on the Little Mary lease on a geo-physical anomaly selected by Dan Stewart of the American While no ore was cut, the formation was good Another hole is now in progress So far we have struck no ore at all on the Little Mary Lease

TEN O'CLOCK LEASE

Nine holes were completed on the Ten O'Clock lease during the month Of these eight were good holes and one only fair This drilling continues to be very satisfactory Three drills were on the ground but one broke down and almost one week was consumed making the repairs

008604

WALLOWER LEASE

Eight holes were completed on the Wallower lease during July, Of these one was entirely blank, two were slime holes not worth assaying and one hole lost at 120' depth The remaining four holes were good This project is doing well in extending the size of the orebody but the ore is deeper than I like to see for a strip pit operation

LIMA LEASE

Two drills were secured the past week for prospecting this lease and two holes are now in progress One struck exceptionally high grade lead ore at 30 feet and was still in it on Saturday at 37-1/2 feet

Taken as a whole the month has shown very satisfactory progress on all leases except the Little Mary Work has been extremely trying, due to the extremely hot weather and drought Three men have been compelled to quit work on account of the weather and hence footage completed has been lower than it should have been This heat has been almost continuous through June and July and is continuing into August So far Carl and I have gotten along very well, but sometimes we wondered how much longer we can stand it However, we still keep at it and no heat stroke to date We hope to be able to submit this coming month estimates of tonnages developed on the Cliffwood Ten O Clock and Wallower tracts

Attached hereto are statements for services and expenses for Carl Plumb and myself for the month of July

Yours very truly,

Otto Ruhl
